How to use your Electronic Viewfinder Monitor Kit

Configuration & Setting on next page.

Configuration of Setting Menus

Input Source -Toggle between HDMI and Composite Video Inputs Guides Toggle between the following: Crosshair-80%, 90%, 15:9, 4:3, 1.5:1, 1.85:1, 2:1, 2.35:1 Grids -Activates Crosshair on center of screen Video Config Activates grid on the screen to assist with framing Brightness: 0-100 Contrast: 0-100 Chroma: 0-100 Sharpness:0-100 Tint: 0-100 Color Temp_ - 5600K, 6500K, 9300K, Manual Backlight - Allows user to fine tune the intensity of the LCD Panel's backlight Aspect-Allows user to change the aspect ratio of the image System Config -OSD - Language: Choose between English & Chinese for OSD OSD - Duration: Choose how long the menu stays active without activity OSD - Transparency: Adjust the transparency of the on-screen menu System Reset - Reset Settings to Factory Defaults Menu Setup -This function recalls user-defined value settings. The user settings will remain in memory indefinitely and can be erased by using the reset option in the main menu. Power Mode This option allows you to choose how the monitor behaves when power is applied. Display a crosshair on the center of screen. The VL35 is equipped with Monochrome Peaking features which highlight the desired focus area in a bright, red outline. The operator adjusts the focus control until the red indicator outlines on the desired area are razor sharp, indicating optimal focus. For the best results, be sure the subject is properly exposed. The false color feature utilizes a full spectrum of assigned color indicators. Function 1-2 ensuring flawless shot exposure. As the camera iris is adjusted, the subject Guides of the image will change color based on specific brightness values indicating Crosshair optimal exposure. See included chart for color assignments. Grids The VL35 offers adjustable upper Clip Guide levels to accurately display Peaking overexposed images in any shooting condition. The operator simply assigns the **False Color** upper IRE to their preference and any exposure over the IRE limit will flash in a Clip Guides vivid purple, indicating only the overexposed area. Underscan **DSLR Scaling** The DSLR Scaling function will allows users to extend their DSLR camera's HDMI Video output any option of four; Normal, 3:2, 16:9, or Full Screen -Histogram Convenience made simple. 5D II Rec Pixel to Pixel -A graphical representation of the pixels exposed in your image. The left side **Check Field** of the graph represents the black as shadows, the right side represents the H/V Delay highlights or bright areas, and the middle section is mid-tones. How high the peaks reach represent the number of pixels in that particular tone. This tool Zooming helps you achieve proper exposure. When using a 5D Mark II, this mode improves the time it takes for the image to appear when going into record mode from live view. The LCD Panel in this display has a native display of 800x480 pixels. A signal of any other resolution is scaled to fit this native resolution. There may be time when it is desired to view the incoming signal without scaling. Enabling Pixelto-Pixel mode turns off the scaling and displays a 800x480 pixel window of the original image. Each pixel of the panel displays one pixel of the original image. The user may use the arrow buttons on the monitor to move the window left, right, up or down to see the desired portion of the image. This function displays the blanking portion of the incoming signal. This feature allows you to enlarge the image up to 3x.

Specifications

Backlight	LED			
Color Depth	16.7 Million			
Color System	PAL / NTSC / SECAM (Auto-Detected)			
Contrast Ratio	800:1			
Diagonal (Inch)	3.5 ln.			
Dimensions (Monitor)	4.0 x 2.9 x 0.7 ln. / 104 x 74.2 x 20.1mm			
Inputs	HDMI, Composite			
LCD Brightness	315 cd/m2			
Material	Heavy Duty Plastic			
Operating Volts	DC 6 - 24V			
Outputs	HDMI			
Power Consumption	2.5W			
Resolution	800 x 480			
Surface Treatment	Anti-Glare			
Viewing Angle	160 <i>(H)</i> 160 <i>(V)</i>			
Weight	0.2 lbs / 100 g			
Shipping Dimensions	3.5 x 7.75 x 6.25 ln. / 8.8x19.6 x 15.8 cm			
Shipping Weight	1 lb / 0.45 kg			

Supported Video Signals

	720x480i & 720x480p @ 59.94, 60 Hz				
	720x576i @ 50 Hz				
	1280x720p @ 23.97, 24, 25, 29.94, 30, 50, 59.94, 60 Hz				
HDMI	1920x1080i @ 50, 59.94, 60 Hz				
וואוטח	1920x1080psf @ 24, 25, 29.97, 30 Hz				
	1920x1080p @ 23.97, 24, 25, 29.94, 30, 50, 59.94, 60 F
